## RESUME

I am a Software Engineer and a graduate of EPI Digital School in Sousse, with a strong passion for designing and developing practical, efficient, and scalable software solutions. I am currently seeking a full-time opportunity in software development where I can apply my technical skills, contribute to impactful projects, and continue growing as a software engineer. Curious by nature and committed to continuous learning, I value teamwork, adaptability, and delivering high-quality solutions that create real value.

## PROFESSIONAL EXPERIENCE

- **End of studies Internship | Mobelite Labs Tunisie** **January 2023 - July 2023**

  Developing a web / mobile application for exchanging toys online

- **Summer Internship | Mobelite Labs Tunisie** **June 2025 - August 2025**

  Designing and developing a CMS solution for creating static websites

- **End of studies Internship | Mafrah IT** **January 2026 - july 2026**

  Designing and developing an intelligent HR management plateform.

## PROJECTS

- **Kiddos Tradez** **January 2023 - June 2023**

  Kiddos Tradez is a web and mobile application for exchanging toys online. Developed with reactJS , react native and spring boot , the application gives a simplified solution for parents to exchange and sell unused toys.

- **JOBPORTAL** **October 2024 - December 2024**

  JOBPORTAL is a web application for job applications. Developed with the mern stack ( reactJS / express.js ) , the application gives the opportunity for entreprises to post available job positions and except applications from the condidates.

- **InvoicePro** **February 2025 - June 2025**

  InvoicePro is a web application developed with next.js that proposes a solution for small entreprises to manage invoices and quotes.

- **RHPro** **January 2026 - July 2026**

  RHPro is an intelligent Human Ressources Managment plateform. Dedicated to track work hours , leaves requests and workers performance through a centralised space powered with ai features.
